No comment in this audit projects

Disclaimer

This audit provides a technical evaluation of the associated project's smart contract. It aims to enhance security and value perception but does not guarantee safety or profitability. The audit isn't an endorsement of the project and doesn't absolve investors from conducting their due diligence.

Liability for any losses related to the use or interpretation of this audit is expressly disclaimed. Investing in blockchain and cryptocurrency projects inherently involves risk, and investors should only commit funds they are prepared to lose.

Investors are strongly advised to "Do Your Research" **(DYOR)**. Here's a simplified checklist to

ılways make sure not only about audit but all investor need to check unlocked tokens, many scamn
